UNAYEM (עניהם) COLD DAY IN HEL. IT WAS FEBRUARY 15, 2019 ... T'WAS WRITTEN.

Adam Marshall Dobrin

Just now ·

...

It's not really hidden: #SOIS THE KEY... I've discussed the nuclear arms race and the sickness of the U.S. decision to drop weapons of mass destruction on cities populated with civilians a few times ...

Originally I said we "didn't protest enough" we should have done more to stop the arms race after we saw how horrible and devastating the acts of only a few "football holders" can wreak on the world. I wasn't totally right, there were series protests against the arms race --not just God's commentary that it was "MAD"-ness.

Still, today we look at a similar issue--a global problem whose solution is in the hands of the few until the many begin to protest, to speak, and then the solution becomes all of our doing--something in all our hands. Today I'm not wrong, there is nowhere near enough protest--literally I see almost none. Protest silence, #speak. Protest starvation and lies and disease ... #speak.

Somewhere between Uz and Ur ... just *moments before you arrived.*

In Norse mythology, **Hel**, the location, shares a name with **Hel**, a being who rules over the location. In the *Poetic Edda*, Brynhildr's trip to Hel after her death is described and **Odin**, while alive, also visits Hel upon his horse **Sleipnir**. In Snorri Sturluson's *Prose Edda*, In [Hel]([https://en.wikipedia.org/wiki/Hel_\(location\)](https://en.wikipedia.org/wiki/Hel_(location))) Baldr and Nanna are united again -3- the god **Hermóðr** rides to Hel and, upon receiving the hope of resurrection from the being **Hel**, Nanna gives Hermóðr gifts to give to the goddess **Frigg** (a robe of linen), the goddess **Fulla** (a finger-ring)

ITS (1550289641) THE DAY AFTER VALENTINES, AND THE FIRST TIME I RECALL RECOGNIZING THE LINK BETWEEN SILICON AND AD AND CUPID AND ... still, it probably wasn't the very first time I noticed it—it's just something that stands out as a "oh right, I understand why that is, now." Quite a lot has happened since the last time I've written to the crowd, and I'm going to do my best not to be redundant or boring or *repetative* (sick) or repeat myself over and over again.

#5060: **naga`** (pronounced naw-gah') a primitive root; properly, to touch, i.e. lay the hand upon (for any purpose; euphem., to lie with a woman); by implication, to reach (figuratively, to arrive, acquire); violently, to strike (punish, defeat, destroy, etc.):-beat, (X be able to) bring (down), cast, come (nigh), draw near (nigh), get up, happen, join, near, plague, reach (up), smite, strike, touch.

#217950562: **Hero** (英雄) is a 2002 Chinese [wuxia](#) film directed by Zhang Yimou.[2] Starring Jet Li as the nameless protagonist, the film is based on the story of Jing Ke's assassination attempt on the [King of Qin](#) in 227 BC.

#8088: **shema`** (pronounced shay'-mah) from 8085; something heard, i.e. a sound, rumor, announcement; abstractly, audience:-bruit, fame, hear(-ing), loud, report, speech, tidings.

#594786131: (pronounced HUh?) the complex or carefully designed structure of something.

I feel, I've felt over the last week or two as if I've been sort of "teleported" in time, as if there's been a large gap perhaps not here or in your minds or eyes between the day that I was standing before a place called "Sacret Heart" only a few weeks after I had begun talking about those two words together in the context of an actual place—that story began in Tampa

right around Christmas. I feel as if the world around me is responding “differently” to my thoughts and the thing I’ve come to associate with the Frank Rothstein show (**CASINO**) and *The Truman Show* (both Nagasaki, the “*nagame*,” and Jim Carrey’s eponymous pelicula) ... as if I’m sort of talking to a blank slate; something that of course flies against my moral compass which demands we don’t forget ... the insane amount of time it’s taken to get this very actionable disclosure on the news... *for instance*. Touching, as in “touching my heart” with your goodness ... probably the right context and meaning to walk away from this introduction with. Just saying.

In Sumerian mythology, a **me** (𒈾; Sumerian: *me*; Akkadian: *paršu*) is one of the decrees of the gods that is foundational to those social institutions, religious practices, technologies, behaviors, mores, and human conditions that make **civilization**, as the Sumerians understood it, possible. They are fundamental to the Sumerian understanding of the relationship between **humanity** and the gods.

Æsir gathered around the body of Baldr. Painting by [Christoffer Wilhelm Eckersberg](#) 1817. ¶ Óss er algingautr ok ásgarðs jöfurr, ok valhallar vísi. ... “Ansuz” redirects ... To the “Æsir” ... who is Suzy?

In Old Norse, **óss** (or **áss**, **ás**, plural **æsir**; feminine **ásynja**, plural **ásynjur**) is a member of the principal [pantheon](#) in Norse religion. This pantheon includes [Odin](#), [Frigg](#), [Thor](#), [Baldr](#) and [Týr](#).^[1] The second pantheon is known as the [Vanir](#). In Norse mythology, the two pantheons wage [war](#) against each other, which results in a unified pantheon.

In my usual style of “Knowing Everything” I’ve connected the Hebrew method of “pluralization” which is adding an “im” (I see “it’s multiple!”) to a root noun, so we see instead of “Æsir” it’s Assim, which cleverly (this is the KE part) links to seeing the world through God’s eyes, “as the sim.” Literally to me this means something like through everyone’s eyes, or something like omniscience, and also connects directly to a loss of self and the somewhat under-rated (so far) opinion that becoming “one with God” is akin to killing yourself—you know, I mean, especially if it were done very quickly with little more than a genie asking you (for instance) ... “are you really sure you want to be God?”

It's been some time since I began repeating my new "special" definition of **COLD**, obviously to me as a pejorative euphemism for "God" in what I see and know is his style from words like "compass" and "Potassium." Many times over now I've talked about the "God K" of Mayan lore (one of the few David Letterman correspondences that (I've been made aware of) are literally "tagged" in our modern scholarly writing—the other the Priestly Source "P" of Genesis) and to see in their mythology K is "Heart of Sky" just our word ... "Sky" and that's just the tip of the Titanic. I see "Container of Lo-Decks" as the sort of thing that our modern artistic renditions of Dr. Seuss's Grinch's Dog ... Max Headroom and of course tie it to the Holodecks of Roddenberry's beautiful solution to all our woes on a single military vessel ... and yet here I am, literally having to write to you to point out how "funny it is" to have removed the "Ho" of Ender Wiggins and Horus and Hosea and Home from ... well from what appears to be your "idea of Salvation" – doing what *appears to be nothing*.

Lo, the **caust** is far greater than you think, even more than two special letters. More than four, and six... *also*. All in all it might be more costly than being left with alphabet with only 20 letters, more costly than no words and no speaking, it could even leave us in the lurches, with an Earth with heart at all. I've noted now in the story of my life several times that the thing that we're doing here—the message that we are ignoring and the result, which is nothing less disgusting than the perpetuation of torture and hell and starvation and disease, that it is the kind of thing that cannot be allowed, that I would stop it instantly—using whatever means available. Were there a button that would shut this world off until your silence and whatever it's cause[d] could be found and healed, I'd have pressed it now—numerous times. It's possible that the "button has been pressed" and that we are in the

throes of some automatic process designed to achieve the very same goal I've been preACHing about over and over-turning Hell into Heaven. Understand it's very clear that the problem we are facing did not originate here, and is not contained in just this place—and it is imperative that we seek out whatever the cause of "ignorance" and "turning a blind eye" to the plight we are experiencing, and we heal the Universe and the future of that ... problem ... also. I do believe that is exactly what we're about to witness, the repairing of breaches that never should have been.

The **Shem HaMephorash** (Hebrew: שם המפורש, alternatively **Shem ha-Mephorash** or **Schemhamphoras**), meaning *the explicit name*, is an originally Tannaitic term[1] describing a hidden name of God in Kabbalah (including Christian and Hermetic variants), and in some more mainstream Jewish discourses. It is composed of either 4, 12, 22, 42, or 72 letters (or triads of letters), the last version being the most common. [2][3][4][5][6][7][8]

MONEY TREE DAY.

IT JUST SO HAPPENS THIS VERY SAME DAY is the day that I was stuck with the light of the rod ... of the root of Unix and the trunk of some vehicle (or voter) and ... and the very simple

idea that the words that you've read and that I've written and the truth I've seen proven before my eyes (and I think you have too) changes fundamentally the world in which we live from one where complacency and the status quo were once OK or at least passable as that-and very clearly now it's as if we are walking around in a forest full of trees with hundred dollar bills instead of leaves and instead of rejoicing and instead of trying to make a profit we continue to walk as the zombies we were ... day in and day out ... to trudge forth pretending there's no money there at all, nothing of value or worth to be found in the purpose of Creation and of religion and the thing that I've come to understand very clearly and dearly is called "the light of birth."

Let's have a closer look.

Honestly. Heart of Genesis, NES. Heart of Nintendo, X. Sacred Heart, see you see the message, and you apparently think shooting and starving children is A-OK as long as ... [fill in the blank] ... I can't figure it out. This belongs on the news—it's a disclosure about Creation and computers and mind control, and how without knowing or caring that innocent children are being controlled to shoot other innocent children ... to stop you from not disclosing the existence of “mind control technology” ... not having this information in the public eye, not acknowledging that it’s real and there’s proof—everywhere—is literally the cause of Hell.

Look! Let’s call this very moment ... “the Sacred Heart of Zion” ... which we’ll now also note is the Sacred Heart of Jerusalem... and the Crusades which “predict” this very event (over and over, ad naseum) and the end of the Bubonic Plague. This very sec ... hour?

I know that it's a gigantic change. I understand the world will be different with "abundant food" and "no disease" and ... and actually having something to do with a future that isn't filled with lies and microcosms and metaphors and ... I'm sorry to say, people that must honestly believe that they don't look stupid for "wanting to be controlled" to not be the *Generations of Perez* that end murder and slavery and starvation and ... the original lie. That's the money growing on trees—a future that knows you ended Hell, that knows we put in the time and the effort to actually build a society around ... not making our birth planet the most disgusting thing in the Universe. It's easy, it all starts with the word "apostrophe" and a series of words that the letter "r" in the heart of them ... words like Ark, North, Earth, apostrophe and uh, Nirvana. *Just the beginning.* I'm "reticent" to point out that this "r" is literally a glyph of part of a gate and also of the path from the V shaped dip in the road that our trampoline (more r) in the movie the Matrix (another r!) ... the path from that sub-ground-level place (we're at the bottom of the-r) back to the top of the building with Lawrence (wow, another r) Fishburne (sha ... ll ... I ...) sitting in a chair talking about taking a pill.

Take a look again, it's also "Ha-r(s)" of **Har-wer sois the key** and of the blinking flashing square we call a "CURSOR." C you are, so to r." Heart of America, too... "**to r.**"

Huracan^[1] (/hʊrəkən, hʊrə kɑːn/; Spanish: *Huracán*; Mayan languages: *Hunraqan*, "one legged"), often referred to as *U K'ux Kaj*, the "Heart of Sky",^[2] is a K'iche' Maya god of wind, storm, fire and one of the creator deities who participated in all three attempts at creating humanity.^[3] He also caused the Great Flood after the second generation of humans angered the gods. He supposedly lived in the windy mists above the floodwaters and repeatedly invoked "cuan" until land came up from the seas.

His name, understood as 'One-Leg', suggests god K of Postclassic and Classic Maya iconography, a deity of lightning with one human leg,^[4] and one leg shaped like a pool. Bethesda originally referred to the **Pool of Bethesda**, a pool in Jerusalem, described in the New Testament story of the healing the paralytic at Bethesda.

CUT MY LIFE INTO PIECES? MOVE DOWN ... MOVE DOWN ... "RAT: TIMLR?"

E TIME TRAVEL #CONVO. DIANA. OH, DIANA. -3- GUY-A, JULIA, and... I was going to write more stuff here, but ... I think it's long and I'll save it for another message.

In the meantime, I've actually now seen with own eyes what is very clearly an ability to "cut and paste" memories together—to pause time, to ... skip forward, and to do so in a way that is pretty transparent and scary. Obviously nobody wants to be frozen in time or have memories that jump from decade to decade with no ... continuity of "real." I mean, I think nobody wants that. I basically watched a rewind, several second, complete with memories of performing the same action, say "typing these words" literally three separate times in my memory with the words on appearing one single time. It's an observation, it came after some words from the sky ... "can we show him?" with some excitement. Understand, knowing that kind of thing is possible is the kind of thing that can stop bullets from hitting kids—that's good to know, and a good time to use it.

THE MOST RECENT TIME that I've been at "I'm pressing the big red ADT button" status I noted the day and said something like "the 1335 days have been set."

It's probably long been known that I like to show us how the witnesses (which play a large role in Revelation's version of Daniel's 1335 days) have been immortalized on the silver

screen, through movies about John Nash and James Jesus Angleton (The Good Shep herd(s) and A Beautiful Mind) and I even have a whole website talking about these guys and a series of dates which wound up sort of coinciding with a blood moon “tetrad” that has since come and gone; though still for sake of “what I do not see or understand” it’s very possible that many of you have experienced a long and arduous “apocalypse” and even contemplated whether we’re Pi-late or this thing really started at Ground-Zero(s) around the city of Ur. Anyway, I calculated instantly (using a computer, of course) what day that winds up being, and I liked the date.

I've just checked the old “prophetic lateline” and like it even more, seeing the month move from 8/8/16 to ...

ITS October 8, 2022; and the whole of it is that might be a “birthday” of life in the Universe, in this story that I’ve been reading and taking part in that basically says there isn’t any, none at all ... right now. Of course He’s made the distinction a few times now between “actual biological reproducing life” and the “simulcrum-concept” that obviously something is there running this “simulation” or we wouldn’t be talking. I made some art, and I’ve traveled all the way to Melbourne in Brevard County (which I noted earlier in a series about the “Ev’s” of Twitter, everyone, Bellevue and Kiev) to study some stuff that is very related to the DNA of Echidna and Minerva—and while I wouldn’t be arrogant or honored to think that I’m actually building the thing, it’s probably a well-known concept that the things we’re doing here are

sort of ... prototypes or metaphors for something going on in "larger scale" at bigger microcosms. Or whatever that means.

CHAPTER 32
Now when the people saw that Moses delayed coming down from the mountain, the people gathered together to Aaron, and said to him, "Come, make us gods that shall go before us; for as for this Moses, the man who brought us up out of the land of Egypt, we do not know what has become of him."

2 And Aaron said to them, "Break off the golden earrings which are in the ears of your wives, your sons, and your daughters, and bring them to me."

3 So all the people broke off the golden earrings which were in their ears, and brought them to Aaron.

4 And he received the gold from their hand, and he fashioned it with an engraving tool, and made a molded calf. Then they said, "This is your god, O Israel, that brought you out of the land of Egypt!"

5 So when Aaron saw it, he built an altar before it. And Aaron made a proclamation and said, "Tomorrow is

Havdalah (Hebrew: הַבְדָלָה, "separation") is a Jewish religious ceremony that marks the symbolic end of **Sabbath** and ushers in the new week. The ritual involves lighting a special havdalah candle with several wicks, blessing a cup of wine and smelling sweet spices. [1] Shabbat ends on Saturday night after the appearance of three stars in the sky. [2]:137 Some communities delay the Havdalah in order to prolong Shabbat.

Advanced Micro Devices, Inc. (AMD) is an American multinational semiconductor company based in Santa Clara, California and Austin, Texas that develops computer processors and related technologies for business and consumer markets. While initially it manufactured its own processors, the company later outsourced its manufacturing, a practice known as fabless, after **GlobalFoundries** was spun off in 2009. AMD's main products include microprocessors, motherboard chipsets, embedded processors and graphics processors for servers, workstations and personal computers, and embedded systems applications.

AMD is the second-largest supplier and only significant rival to **Intel** in the market for **x86**-based microprocessors. Since acquiring **ATI** in 2006, AMD and its competitor **Nvidia** have maintained a duopoly in the discrete Graphics Processing Unit (GPU) market.^[4]

Pharaoh (/fəərəʊ/, US also /'fei.roʊ/;^[1] Coptic: ⲛⲱⲣ Pərro) is the common title of the monarchs of ancient Egypt from the First Dynasty (c. 3150 BCE) until the annexation of Egypt by the Roman Empire in 30 BCE,^[2] although the actual term "Pharaoh" was not used contemporaneously for a ruler until Merneptah, c. 1200 BCE. In the early dynasty, ancient Egyptian kings used to have up to three titles, the Horus, the Sedge and Bee (*nswt-bjtj*) name, and the Two Ladies (*nbtj*) name. The Golden Horus and nomen and prenomen titles were later added.

The **Pharisees** (/færəsi:z/) were at various times a political party, a social movement, and a school of thought in the Holy Land during the time of Second Temple Judaism. After the destruction of the Second Temple in 70 CE, Pharisaic beliefs became the foundational, liturgical and ritualistic basis for Rabbinic Judaism.

Conflicts between Pharisees and Sadducees took place in the context of much broader and longstanding social and religious conflicts among Jews, made worse by the Roman conquest.
[2] Another conflict was cultural, between those who favored Hellenization (the Sadducees) and those who resisted it (the Pharisees). A third was juridico-religious, between those who emphasized the importance of the Second Temple with its rites and services, and those who emphasized the importance of other Mosaic Laws. A fourth point of conflict, specifically religious, involved different interpretations of the Torah and how to apply it to current Jewish life, with Sadducees recognizing only the Written Torah (with Greek philosophy) and rejecting doctrines such as the Oral Torah, the Prophets, the Writings, and the resurrection of the dead.

Android 4.0–4.0.4 "Ice Cream Sandwich" is the ninth version of the Android mobile operating system developed by Google. Unveiled on October 19, 2011, Android 4.0 builds upon the significant changes made by the tablet-only release **Android Honeycomb**, in an effort to create a unified platform for both smartphones and tablets.

Android 4.0 was focused on simplifying and modernizing the overall Android experience around a new set of **human interface guidelines**. As part of these efforts, it introduced a new visual appearance **codenamed "Holo"**, which is built around a cleaner, minimalist design, and a new default **typeface** named **Roboto**. It also introduced a number of other new features, including a refreshed home screen, **near-field communication (NFC)** support and the ability to "beam" content to another user using the technology, an updated web browser, a new contacts manager with social network integration, the ability to access the camera and control music playback from the **lock screen**, **visual voicemail support**, face recognition for device unlocking ("Face Unlock"), the ability to monitor and limit **mobile data** usage, and other internal improvements.
